Technical Skills

Languages	Java, JavaScript, C
Frontend	React.js, HTML5, CSS3
Backend	Node.js, Express.js, REST APIs
Databases	MySQL, PostgreSQL,MongoDB
AI / ML	Machine Learning, Generative AI, Prompt Engineering, Data Analysis
CS Fundamentals	Data Structures & Algorithms, OOP, DBMS
Tools	Git, GitHub

Projects

Karviam (formerly KaamON) - Two-Sided Local Work Marketplace Visit Website

React.js, Node.js, Express.js, PostgreSQL, REST APIs, JavaScript

1. Built a two-sided local work marketplace where users can post jobs and find short-term earning opportunities using the same account.
2. Developed REST APIs using Node.js, Express.js, and PostgreSQL for managing jobs, users, applications, and marketplace data.
3. Implemented job discovery with category-based filtering, job details, and location information to help users find relevant local work opportunities.
4. Deployed the full-stack application with a responsive React.js frontend and connected it to the custom domain karviam.in.

Devrooms - AI-Powered Developer Collaboration Platform Visit Website

MERN Stack, Clerk Authentication

1. Developed a full-stack collaboration platform enabling developers to communicate and work together in real time.
2. Integrated an AI-powered chatbot for programming assistance, debugging, technical guidance, and code review.
3. Implemented secure authentication, community creation, role-based access control, and invite-based joining.
4. Built a responsive MERN-stack application with scalable user and community management functionality.

AI-Powered Job Market Skill Analyzer Visit Website

Python, Pandas, Scikit-learn, Streamlit

1. Built a job market analysis application to identify frequently demanded technical skills across different job roles using real-world job posting data.
2. Performed data cleaning, exploratory data analysis, and visualization to uncover skill demand trends and role-based insights.
3. Implemented skill-based job matching using text analysis and similarity techniques to recommend relevant roles and highlight user skill gaps.

Education

Kalinga Institute of Industrial Technology *2023-2027*
B.Tech in Computer Science CGPA: 7.18/10.0

Class 12 - CBSE 75.8 %
Class 10 - CBSE 64 %

Certifications

1. AWS Cloud Fundamentals Certification View certification
